Dear NeXtime Friends,

2020 is a special milestone for NeXtime! We are officially half way through all the good times to approach a full century! 50 years is a long time and we are proud to be one of the very few, still existing, true clock makers in Europe. NeXtime has come a long way and we have sold clocks in many shapes and forms, always adapting to the latest trends.

In 2019 we continued on our key drivers: expanding & developing. We have expanded our world wide network by entering into partnerships with new distributors. There are still many countries left to explore, so in 2020 we continue to look for new distributors to further expand our network.

For 2020 we have been developing a new collection and we are proud to introduce this to the public! The 2020 collection is characterised by the variety of different styles, sizes, designs and materials. We introduce new table and wall clocks, all with their own touch of NeXtime Design.

In 2019 we have successfully launched our nXt clock range, our clock collection with basic styles and affordable prices. In 2020 we will extend our nXt collection and add clocks with fun & trendy designs.

Please do not hesitate to contact us with any questions or further information.

Essentials

Nightingale

We all know the traditional cuckoo clocks and now we have developed a modern trendy variant. This hummingbird clock has a wide ABS edge, a natural wooden look provided with special designed colour-full hands. The hummingbird will appear every hour and will give a wonderful sound (not the traditional "cuckoo cuckoo"). O but don't worry if you want to hang this clock in your bedroom, during the night the sound turns off automatically so it won't wake you up! The clock has a mute function and you can adjust the volume.

ALWAYS THE EXACT TIME

A Radio Controlled clock (often referred to as RC or DCF) is set to an atomic clock by radio signals due to the movement in the clock. This ensures that your clock always displays the correct time and you do not have to change your clock to summer- or winter time anymore

The Radio Controlled clocks by NeXtime are controlled by the DCF77 atomic clock located near Frankfurt in Germany. This atomic clock gives a signal within a radius of about 1500 kilometers. Our clocks represent the Central European Time (CET). Note: England is not in this time zone.

According to the calculation, the accuracy is 1 second per 1 million years. Do you want to be sure that you always have the exact time? Then choose Radio controlled!

New Beauty

The New Beauty is the successor of the Beauty (2590). By adding wooden elements to the design, the clock is even more unique and a real centre piece in your room.

By using a mechanical movement, NeXtime is going back to its roots. Making mechanical clocks is what made NeXtime known.

The Clock Tower

We offer a great way to showcase the clocks and keep stock of them at the same time. The wooden clock tower has been a proven success to increase sales in stores and in various markets.

Our Clock Tower can show a minimum of 16 different clocks. There is room to stock 4 to 5 pieces of every clock. This is very convenient for the consumer to pick the items they select. Sales is always better when the clocks are hung on the wall and presented nicely. The clock tower gives you this opportunity without drilling holes on your walls. You can also change the assortment regularly without the display gets out of style. It is the most efficient way to show so many clocks on only 1m² in floor space in your store.

The clock tower is free standing and can be placed anywhere in any store.

The Clock Rail

Our unique NeXtime Clock Rail is a strong and creative medium to present our clocks, resulting in more customer engagement and boost in sales. The Clock Rail is NeXtime branded, it can be securely fitted to practically any wall and provides an easy way to hang NeXtime clocks instantly. The NeXtime Clock Rail is uniquely equipped with special 'clock hangers' which simply attaches to the Clock Rail, providing a hanging system for approximately 10 clocks per NeXtime Clock Rail.

- Easy way to hang NeXtime clocks
- Use when there is not a lot of space
- At smaller shops
- It has an attractive look
- It triggers customers to buy a clock
- No need to drill a lot of holes in the wall
- All clocks together for more impact
- Strong branding
- No use of floor space

About nXt

nXt is part of NeXtime International's brand portfolio that offers more mass appeal and affordable clocks. We have divided this group into a nXt collection and nXt customised.

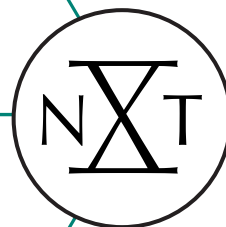

nXt collection

The nXt collection is about different basic styles, affordable prices, versatile ideas and the highest quality build.

nXt customised

The nXt customised projects are for businesses with special requests. We can make design proposals, add a logo and customise the different parts of the clock together with the customer. The nXt customised will be used for OEM purpose and start with orders around 500 pieces. Please contact us for more information; info.hk@nextime.eu

NeXtime is represented by its own offices and distributors worldwide.

As a family-owned company, NeXtime appreciates the opportunity to work with every partner all over the world. We, in fact, treat our business partners like close friends and families.

We are expanding our network, if you like to join our NeXtime family please contact us, **info@nextime.eu** and let's explore the possibilities.
